

# Testing Spring

---

Beginner to Guru

TDD 2 - Degenerate Objects

## TDD Cycle Review

1. **Write a Test** - Think about how the code should work.
  2. **Make it Run** - Quickly get the code working. Make the test **Green**.
  3. **Make it Right** - Refactor the running code to quality, proper code.
- **Goal** - "Clean Code that works." - Ron Jeffries

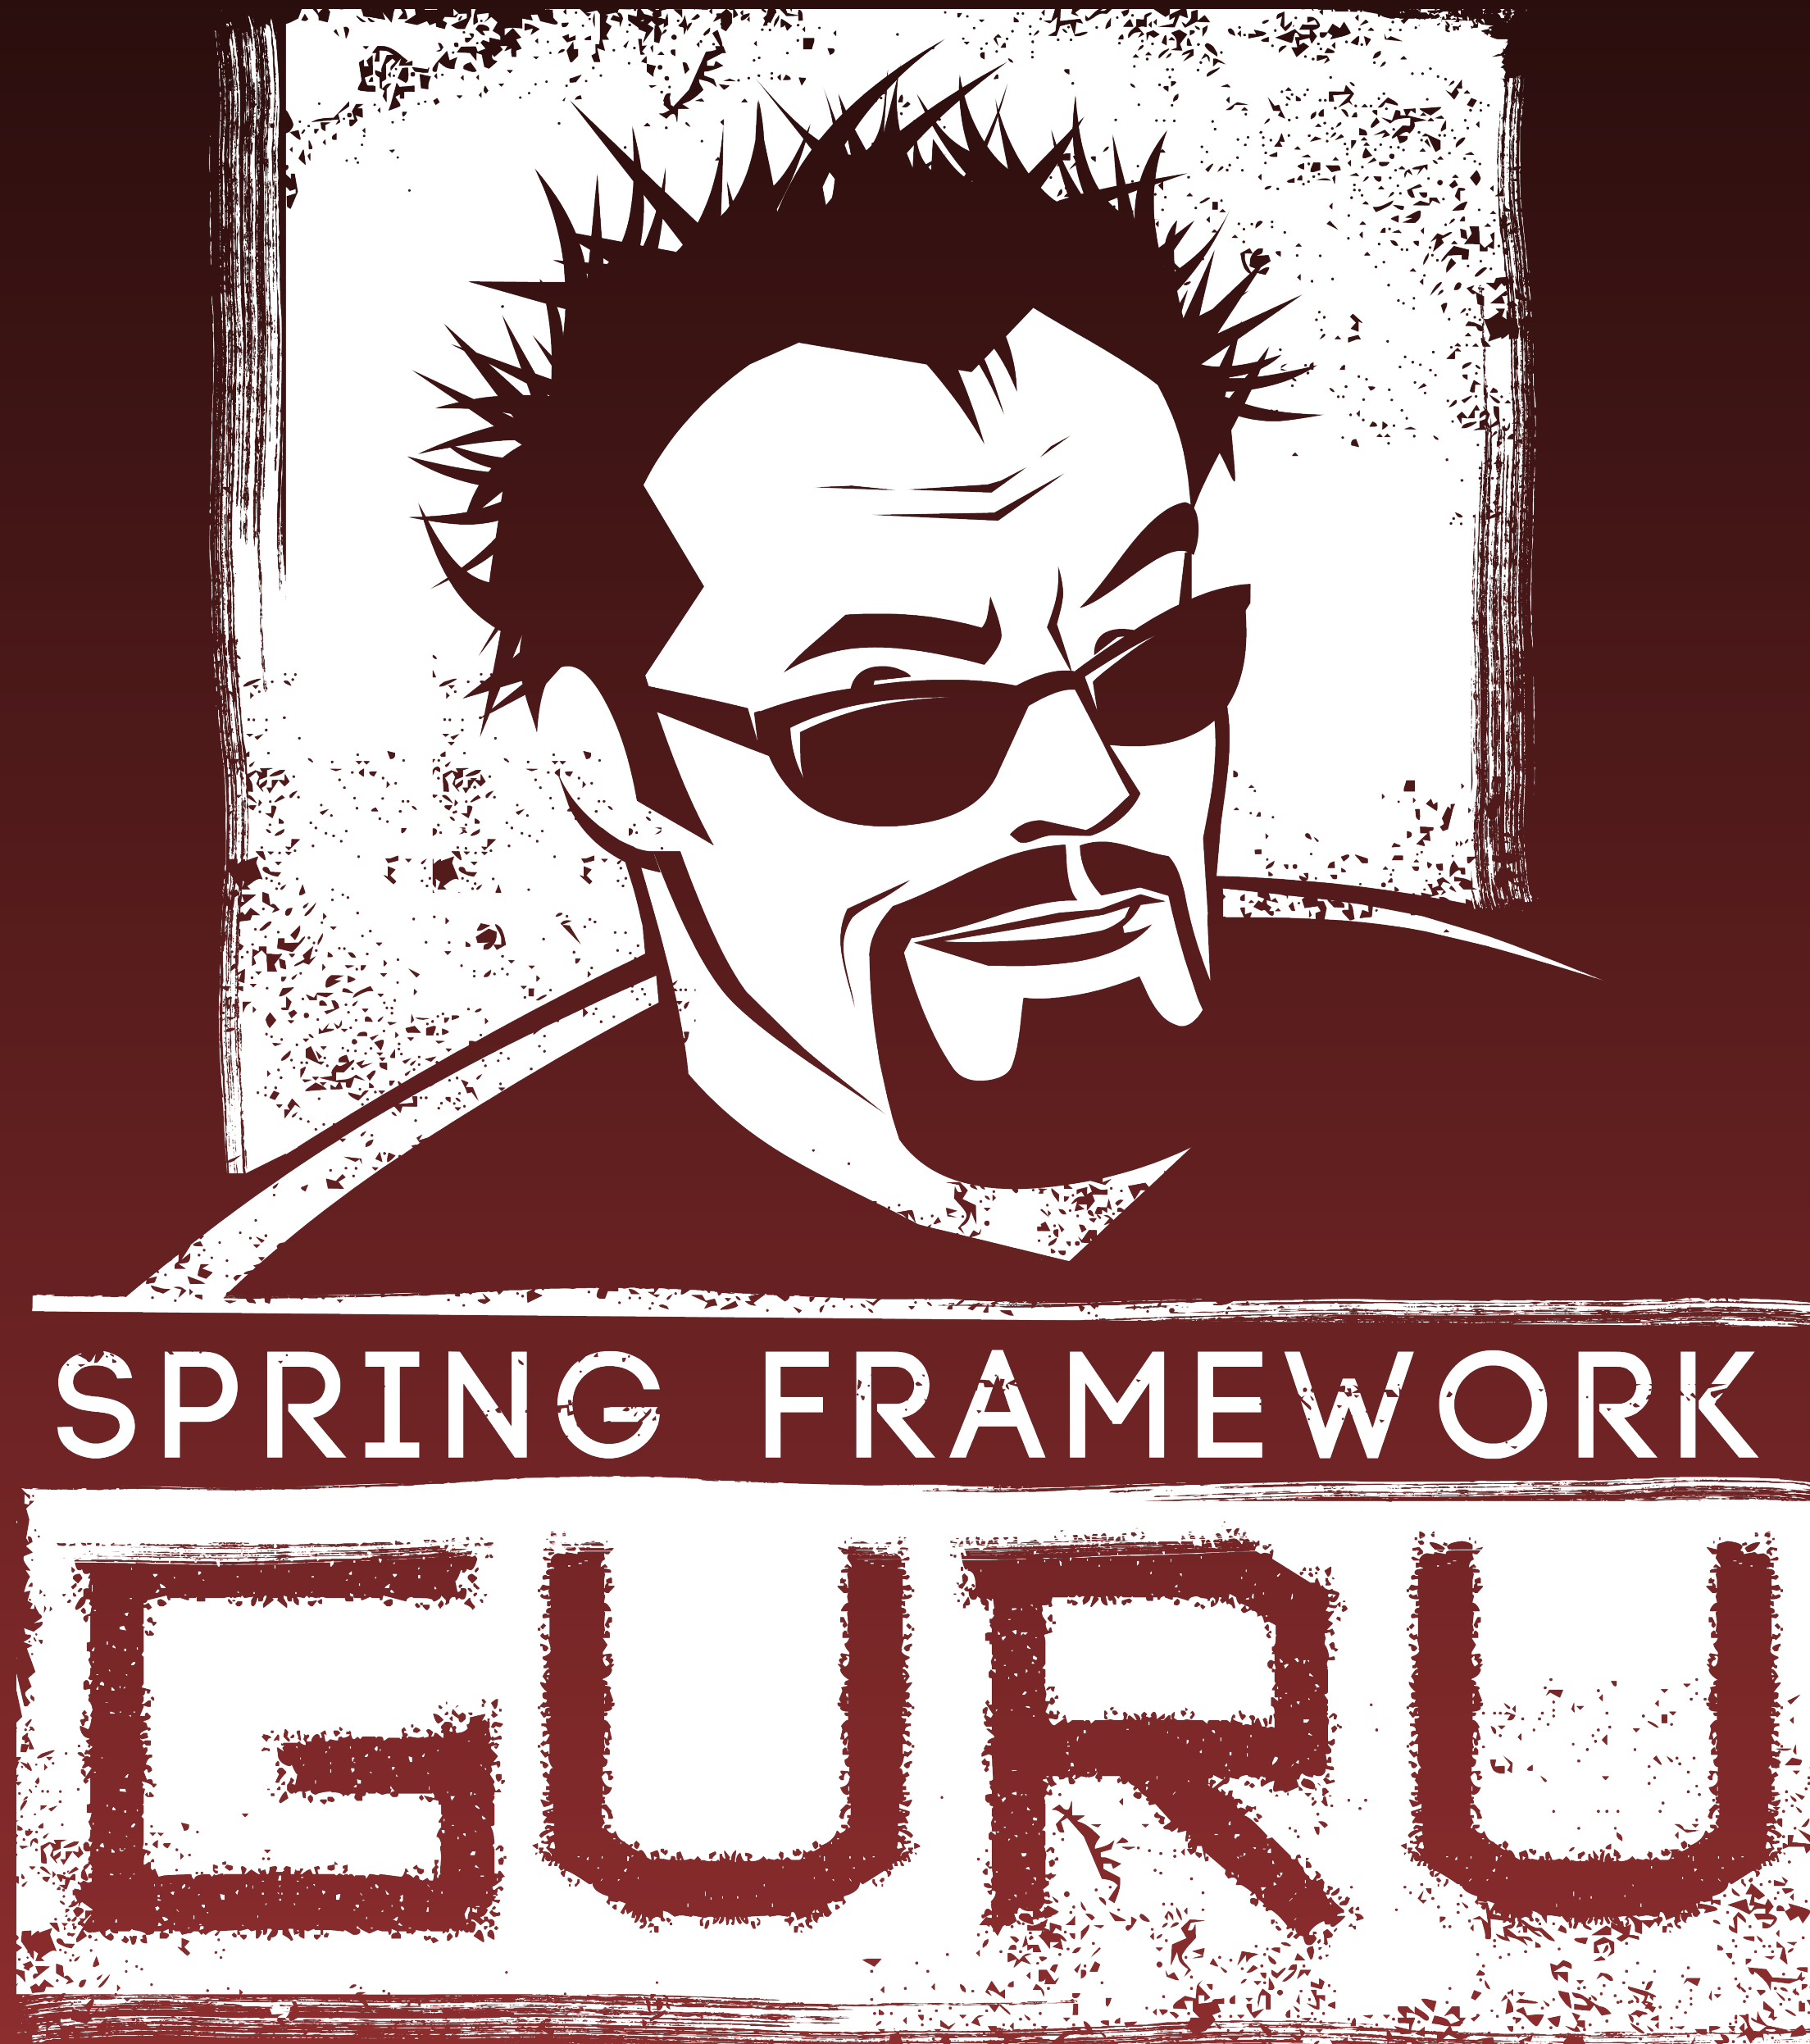

## TDD To-Do List

- $\$5 + 10 \text{ CHF} = \$10$  (with rate of 2:1)
- ~~$\$5 * 2 = \$10$~~
- Make “amount” private
- **Dollar side effects?**
- Money Rounding?

## TDD To-Do List
